Dear Student:

Welcome to Hands On Therapy. We believe that our school is a special kind of school. We pride ourselves in being top of the line and up-to-date in all issues concerning the field of massage therapy and the education of massage therapy students. We are excited that you have chosen us as a path to your new career.

As an educator and business administrator, I know that success in any field comes from the proper blend of education, ability and hard work. We do everything possible to ensure that our graduates are successful in the field by giving you tools and support to lead you in the right direction. Our staff is here to work with you every step of the way, from enrolling and choosing the program that is right for you, to helping you pull together resources to ensure a good career. Even after completion of the program, we work to support you by advisement of advertising, interviewing, resume preparation, and building a practice.

I know that as a therapist, I the field of massage therapy has ample opportunities for those willing to work hard and uphold professionalism. I have worked very closely with the American Massage Therapy Association and other like organizations to make sure that our students have those opportunities and can carry on the legacy of many before them that have reaped the rewards of massage therapy as a career. As 16 year veterans in the industry, we have worked to fine tune our school to be the best it can be and are always looking for ways to improve and move forward into the future.

Welcome again to our school. Please remember that we are here for you.

Sincerely,

Carolyn Scott-Naile  
President
